

EGRM Battery powered hydraulic press

Battery powered press for SHARK connectors:

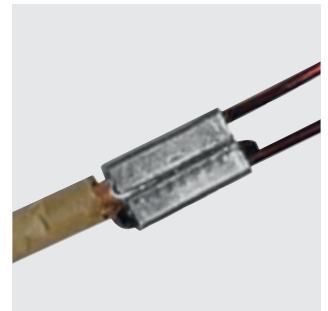

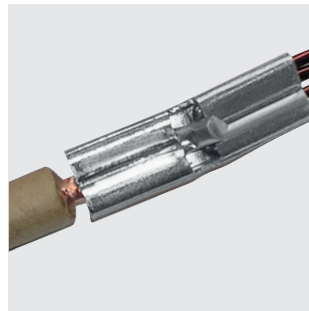

- RM 1, RM 2
- on winding enameled and non-enameled wires
- equipped with SRM dies

Special features:

- efficient Li-Ion battery
- automatic retraction when maximum pressure is achieved
- automatic off switch ending operation cycle after a proper crimping is complete - proper crimping indicated by green LED, not accurate crimping cycle - indicated by red LED
- electronic record of operation cycle – data transfer via USB

2 batteries and charger provided with set

Length: 401 mm; Weight: 2,9 kg

Form of crimping on wire.
