

PE Dielectric shoes

They protect the user against dangerous flow of electrical current destruction coming through the feet to the body. Used as additional protective equipment, applied on the inner shoes (safe, protective or professional).

- designed for working with electrical equipment with voltage up to 20V
- labeled with a serial number and date of manufacture (month, year)
- marked with the double triangle (symbol of electrical insulation properties) with the designation of Class 2
- acquires everted cuff improving the protective properties (during the use should be everted on the upper)
